1 Test section

Żeby kompilacja się nie wysypała to trzeba make_auto.bat uruchomić w głównym katalogu projektu, a nie w katalogu docs.

gdfgdgdgdfgdgdfg

```
function foo(num x = 10){  
    println("%d" % x);  
    if(x < 10){  
        reset x;  
    }  
}  
  
foo(); // should print 10 gdfgdfggfgfdggdfgfd
